

TECHNICAL BULLETIN

Product: S400 Soca Output Breaker Module
Manufacturer: PRG
Subject: Adding Caution Labels
Bulletin No: S400-006

INTRODUCTION

Adding Caution Labels to S400 Soca Output Breaker Module

For safety purposes, two new caution labels should be added to the rear panel of all Series 400® Soca Output Breaker Modules. The labels warn against unplugging Socapex cables while power is applied.

The labels will be supplied by the PRG Dallas office. (Two labels will be supplied for each unit.)

Parts

The parts are supplied at no cost.

04.9680.2712 2 EA LABEL, CAUTION, REAR SOCA PANEL

PROCEDURE

Applying Labels

At rear of module, apply two caution labels as shown below:
