

XR STAGE

at PRG's Virtual Production Studio Los Angeles

A completely scalable extended reality solution

PRG's xR Stage is an immersive, extended reality environment able to accommodate any pre-recorded or live production. It is designed to provide full control over both the lighting and the filmed scenes with real-time visualization. This cutting edge workflow and technology can be applied to everything from award shows to corporate events, music videos, livestreamed concerts or commercial shoots.

XR CAMERA TRACKING

Our camera package comes standard with a Sony F55 4K Live Studio System, Furio dolly, Jimmy Jib, and multiple robotic camera options. Our extensive inventory of cameras, lenses and accessories stored nearby in the Glendale Camera Campus allow us to change out cameras easily. Supported xR workflows include Stype Redspy, Disguise D3 media servers and Unreal Engine.

The health of our customers, employees and visitors is our first priority. Our safety and sanitization protocols can be reviewed [here](#).

- 1 CAMERA OPERATOR
- 1 VIDEO ENGINEER
- 1 AUDIO ENGINEER
- 1 COMMS TECHNICIAN
- 1 LIGHTING TECHNICIAN
- 1 COVID-19 OFFICER

PART OF OUR STUDIO NETWORK

In addition to two Los Angeles studios, we have Digital Studios in New York, Nashville, Las Vegas and Orlando. These environments were similarly created for both pre-recorded and live content for digital events and built for safe, efficient production at any scale.

Services

Engage us as a 360° provider or for solutions in specific disciplines including lighting, video, camera, audio, scenic, rigging, broadcast and virtual productions.

Beyond Equipment

PRG leverages technology to realize the creative visions of our artist and designer partners and shape new and immersive experiences for their audiences.

SOLUTIONS: Multi-disciplinary, groundbreaking solutions on productions of every scale

EXPERTISE: Engineers, product specialists, technicians and project managers, many with decades of experience

INNOVATION: Award-winning proprietary products driven directly by production need

CUSTOMIZATION: A boutique approach shaped by your needs and creative vision

VISION: Belief in technology's ever-growing role in the audience experience
